RICHEST FAMILIES UNITED.

Biggest Millionaires in the Country Attended the Lenox Event—Miss Jean Sayre Becomes the Wife of Professor A. G. Canfield.

LENOX, Mass., June 6.—Two of the richest families in America were united today at noon. In the beautiful Trinity church James Abercrombie Burden, Jr., and Miss Florence Adele Sloane were married.

About 800 guests were present, and they comprised by all odds the greatest gathering of millionaires of the year. W. K. Vanderbilt arrived in his private car in time for the ceremony.

The bride is the granddaughter of Mrs. William Vanderbilt, and daughter of William D. Sloane. The bridegroom, James Abercrombie Burden, Jr., is a member of the family of Burdens, whose fortune originated in the great iron works at Troy, bearing their name. He is himself a millionaire, and has been a prominent figure in New York society for several seasons.

The reception will be given at the Sloane home place, which comprises 2,000 acres, and is considered to be one of the most valuable estates in the fashionable colony of Lenox. For the occasion the preparations have been upon a scale of magnificence more than regal involving, it is estimated, an expenditure of about \$1,000,000. The Curtis, one of the largest hotels of Lenox, was engaged for the exclusive use of wedding guests for three days. A special train conveyed guests from New York to Lenox, and will remain here until they are ready to return.

The bride's trousseau is said to have cost \$40,000. The presents have been mostly in the form of jewels, and a conservative estimate has placed the value of the gifts at \$700,000.

WASHINGTON, June 6.—Consul General Kavel at St. Petersburg has sent the state department a report on the efforts Russia is making to overcome the obstacles which interfere with the export of her cattle and meats to different European markets. At present no Russian cattle are exported to Austria, England, France and Germany. Exports being confined to Italy, Greece and the island of Malta. Russian meats are allowed in Germany, but the quarantine rules, it is contended, are being applied to its exclusion. England admits Russian meats, but complains of the quality. Lately it has been found very suitable for beef tea and a demand created, it being used almost exclusively for that purpose. The largest consumer of imported meats is England, that country using 1,440,480,000 to 1,661,152,000 pounds annually. Russia exported in 1893 only 17,000 cattle, 82,000 hogs, 162,000 sheep and meat to the value of 175,000 roubles. Commissioner Lochren Victorious. WASHINGTON, June 6.—The pension case of Judge Charles D. Long of Michigan, which has been before the local courts in one form or another for some time, was finally determined by the court of appeals, the commissioner of pensions coming out victorious, though the probabilities are the case will now be taken the supreme court of the United States. About a year ago Commissioner of Pensions Lochren caused the pension of Judge Long to be reduced from \$75 to \$50 per month. Subsequently the case came before Judge Bradley of the District supreme court and he decided in effect that the commissioner of pensions had no authority to reduce the pension. The court of appeals has reversed that decision, holding that a pension is not a vested right except in a very limited sense, as shown by the act of Dec. 3, 1893, that the courts cannot interfere and that the pension commissioner had a perfect right to review the acts of his predecessors.
